

In the Claims:

Please cancel claims 1, 5, 7-14, 16, 19-20, 25-29, and 31, without prejudice, and amend claims 2-4, 6, 15, 17-18, 21 and 30 as follows:

1. (Cancelled)

2. (Currently amended) ~~The method of claim 1~~ A print by reference method executable by a portable wireless device, the method comprising the steps of:
obtaining a reference to print content stored at a location indicated by the reference; and,
wirelessly communicating the reference to another device to initiate a print by reference of the print content,
wherein the reference specifies billing information.

3. (Currently amended) ~~The method of claim 1~~ A print by reference method executable by a portable wireless device, the method comprising the steps of:
obtaining a reference to print content stored at a location indicated by the reference; and,
wirelessly communicating the reference to another device to initiate a print by reference of the print content,
wherein the reference specifies print format information.

4. (Currently amended) ~~The method of claim 1A~~ print by reference method executable by a portable wireless device, the method comprising the steps of:
obtaining a reference to print content stored at a location indicated by the
reference; and,
wirelessly communicating the reference to another device to initiate a print
by reference of the print content,
wherein the reference specifies time and date information.

5. (Cancelled)

6. (Currently amended) ~~The method of claim 1A~~ print by reference method executable by a portable wireless device, the method comprising the steps of:
obtaining a reference to print content stored at a location indicated by the
reference; and,
wirelessly communicating the reference to another device to initiate a print
by reference of the print content,
wherein the reference specifies a number of copies of the print content to be printed by a print device.

7-14. (Cancelled)

15. (Currently amended) ~~The method of claim 13 wherein the~~ A print by reference method executable by a portable wireless device, the method comprising the steps of:

obtaining a reference to print content stored at a location indicated by the reference;

wirelessly communicating the reference to another device to initiate a print by reference of the print content; and

communicating a discovery signal that comprises a request for information about a capability of the another device.

16. (Cancelled)

17. (Currently amended) ~~The method of claim 1~~ A print by reference method executable by a portable wireless device, the method comprising the steps of:

obtaining a reference to print content stored at a location indicated by the reference;

wirelessly communicating the reference to another device to initiate a print by reference of the print content; and

~~further comprising the step of receiving a~~ print status message from the another device.

18. (Currently amended) The method of claim 17 further comprising the step of displaying the print status message received from the another device.

19-20. (Cancelled)

21. (Currently amended) ~~The method of claim 1~~ A print by reference method executable by a portable wireless device, the method comprising the steps of:
obtaining a reference to print content stored at a location indicated by the reference; and,

wirelessly communicating the reference to another device to initiate a print by reference of the print content,

wherein the another device comprises a print service adapted to use the reference to obtain the print content.

22. (Original) The method of claim 21 wherein the reference specifies a print device to which the print service is adapted to transmit the print content.

23. (Original) The method of claim 21 further comprising the step of receiving the print content from the print service.

24. (Original) The method of claim 23 further comprising the step of passing the print content to a print device for printing.

25-29. (Cancelled)

30. (Currently amended) ~~The method of claim 1~~ A print by reference method executable by a portable wireless device, the method comprising the steps of:
obtaining a reference to print content stored at a location indicated by
the reference; and,
wirelessly communicating the reference to another device to initiate a print
by reference of the print content;

wherein the reference further specifies a print format data specifying that the print content should be printed beginning on a new sheet of paper.

31. (Cancelled)

32. (Original) A print by reference method executable by a portable wireless device, the method comprising the steps of:

obtaining a reference to print content stored at an Internet location indicated by the reference;

including the reference in a communication signal formatted according to a Bluetooth communication protocol; and

wirelessly communicating the communication signal to a print device thereby causing the print device to use the reference to retrieve the print content from the Internet and to print the print content.

33. (Original) A print by reference method executable by a portable wireless device, the method comprising the steps of:

obtaining a reference to print content stored at an Internet location indicated by the reference;

including the reference in a communication signal formatted according to a Bluetooth communication protocol; and

wirelessly communicating the communication signal to a print service thereby causing the print service to use the reference to retrieve the print content from the Internet, to format the print content for printing, and to pass the print content to a print device for printing.
